#### ***Extended Lab Course Catalog***

### **VMware Virtual Infrastructure Extended Lab**

This optional extended laboratory course provides students who have completed Virtual Infrastructure with ESX Server and VirtualCenter an opportunity to integrate what they have learned through additional hands-on practice. Specifically, it provides serious students the opportunity to complete all or most of the optional laboratories from their earlier class and to repeat lab activities from the prerequisite class at their own pace with an instructor standing by to provide one-on-one assistance.
