

Blackhawk Technology Consulting LLC

Blackhawk Education Services

Overview

In order to meet increasing demands with fewer resources, IT departments often seek out expert guidance and assistance to accelerate success and alleviate risk. Blackhawk Technology Consulting LLC delivers services to support your objectives and timelines – from education courses to complex custom engagements. In addition to the Blackhawk Technology Consulting LLC team of seasoned professionals, Blackhawk has an extensive network of partners and vendors which are here to serve you.

Blackhawk Education Services offers training and courses on a broad-range of topics, including but not limited to: server consolidation and virtualization, storage consolidation and virtualization, Disaster Recovery and Business Continuity (DR/BC), application streaming/virtualization, Virtual Desktop Infrastructure (VDI), I/O virtualization and much more. Each training engagement or course is customized to meet your businesses objectives and specific learning styles. Please inquire how Blackhawk Education services can help your staff obtain the knowledge transfer that will make their virtualization initiative a success!

Why Blackhawk Education Services

With the training and course offerings from Blackhawk Education Services, your staff will receive state-of-the-art training and knowledge transfer for your virtualization service, solution or product from the experts and professionals which brought it to you. With our reliable and customizable training and courses, your staff will receive an accelerated instruction and research in the rapidly expanding area of virtualization by providing your staff with the knowledge necessary to deploy, maintain, secure and support virtualization technologies most widely used.

Some of the benefits to receiving training from Blackhawk Education Services are:

- Customized classroom instruction, live online training, lab instruction, onsite training and instruction and self-paced training
- Seasoned and experienced professionals with on-the-job-training and knowledge
- State-of-the-art training facilities
- Four training locations located across the United States
- Focus on job-specific skills
- Comprehensive student materials and access to one-on-one instruction with the class instructor
- Hands-on practice in our onsite lab and our mobile lab

Please inquire today about receiving reliable, state-of-the-state, comprehensive and customizable training from Blackhawk Education Services!

Blackhawk Education Services Instructors

Here at Blackhawk Education Services, our seasoned and experienced instructors have created a learning experience that is designed to give the students a full knowledge transfer and the skills needed to successfully deploy, administer, maintain and support their virtualization initiative. This full knowledge transfer is accomplished through extensive hands-on lab exercises, comprehensive course materials, lectures, one-on-one instruction and state-of-the-state learning environment. Our professional instructors have been trained and certified by all of our partners and vendors to deliver you exceptional and comprehensive instruction, assuring that you receive the best education and instruction from the professionals that you can count on!

Each one of our professional instructors has:

- Undergone a rigorous and comprehensive training and certification by each one of our 60 partners and vendors to offer our students the best and most comprehensive educational experience in the field
- Received active and dynamic support from all 60 of our partners and vendors
- Received active and dynamic mentoring and support from our partners and vendors, even while their classes are being taught
- Over 30 years of combined on-the-job and teaching experience
- An e-mail address specifically for after class inquiries and are also available after class for one-on-one instruction

Blackhawk Education Services Delivery Options

Blackhawk Education Services understands that not all students learn the same way and that is why we have created a very flexible and customizable instruction and course set of delivery options. The following is a brief break-down of our delivery options.

Classroom Instruction

Seasoned and skilled instructors state-of-the-art and extensive lab environment and instructor-lead exercises and state-of-the-state training centers create a very dynamic and powerful learning environment for students. Please click on the links below to view the classroom catalog and classroom schedule!

Extended Lab Course

Extended Laboratory courses provide students with the opportunity to integrate what they have learned through additional hands-on practice. Students have the opportunity to complete all or most of the optional labs from their earlier class and to repeat lab activities from the prerequisite class at their own pace. Please click on the links below to view the extended lab course catalog or the extended lab course schedule!
